### What People Have to Say...

"Thank you so much for all of the effort you and everyone else put into developing this system. With it, all of our businesses are going to explode!"

- Scott Simon

"18 months ago, I was spending the majority of my time in airports, hotels, and in rental cars, seeing customers all over North and South America as Director in a Division of a Fortune 500 Company. The job paid well, but gave me no time to be with my friends and family. Plus, I always knew I'd never get rich without developing residual income streams. The problem was, I never had the time to do it around my 60 and 70-hour workweeks and gruelling travel schedule. In only 10 months, I walked away from a six-figure income. I had no idea how much money you could make – the top pay levels are staggering. I fully expect to be making more per month within the next several years than I was making per year in my last job."

- Joel Sanders

"I spent 12 years being successful in the E Quadrant followed by 12 good years in the S Quadrant but had 4 failed attempts to move into the all important B Quadrant. Within only 8 months of starting the Perfect Business program I have already established the foundation of my own business with a regular passive income... my only regret is that I wasn't open minded enough to do this 13 years ago."

- Angus Sutherland

"I'm 22 and in my last year of undergraduate business school. While my friends study the theory of business and work in odd jobs as waiters and waitresses, I decided to actually build a business asset that pays passive income. In 6 months, I already had an established business. While my friends are following the herd and interviewing with the corporate world, I'm building a business that will be paying me more per year than they'll be making in their jobs. I now expect to be a millionaire before I'm 30."

- Chris Lopez

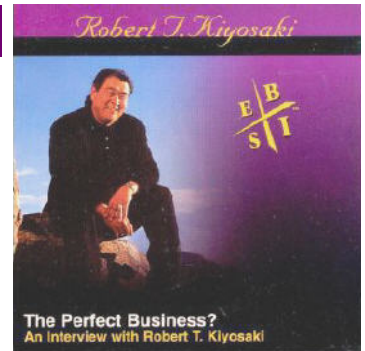

"I've tried 5 times to build passive income, so I've been around the block a bit. I never made money in any of the other ventures, but since doing this, there hasn't been one month when I haven't received a cheque. I've been working this business for 9 months now and already built a profitable business. I knew nothing about it before joining this team, but now I market and build it profitably – every day. Nobody's doing the cutting-edge stuff this team does."

- Antar Gonzalez

## The Perfect Business In-A-Box

"A network marketing business provides a large support group of like-minded people, people with the same core values, the values of the B quadrant, to assist you while you make your transition to the B quadrant."

Robert Kiyosaki
